VETERINARY ORTHOPEDIC SURGERY IN THE HEART OF THE LAKES REGION

Being told your pet needs expensive and invasive orthopedic surgery can be overwhelming, emotionally and financially. Dr. Andrew Keller at Birch Bark Veterinary Clinic is an experienced clinician with extensive additional orthopedic surgery training, with years of experience and hundreds of TPLO procedures performed.

We will work to offer you the BEST option for your pet, and try to keep costs as affordable as possible to make sure we can get your furry family member back to their active lifestyle.

SURGERIES OFFERED AT BIRCH BARK

- TPLO for CCL (Canine ACL) tears
 - TPLO is widely considered one of, if not the best, surgical option for any active dog, from 5 pounds to 200.
- FHO for hip dysplasia
- Plating for selected fracture cases depending on availability

FAQ -

Frequently Asked Questions

What are your operating hours?

Monday, Tuesday, Thursday, Friday:

8:00 AM – 5:00 PM

Saturday: 8:00 AM – 12:00 PM

What is the cost of a TPLO surgery at Birch Bark?

Each pet is unique, and after your consultation appointment, we provide a customized estimate with no hidden fees. This estimate covers everything from surgery day to any necessary rechecks. Our prices are generally **30-50% lower** than those of local specialists.

What is the recovery period for a TPLO?

The average recovery time after a TPLO procedure is approximately 8 weeks.

Is Dr. Keller a boarded veterinary surgeon?

Dr. Keller has extensive additional training and experience with orthopedics, but did not perform a surgery residency. This allows us to perform selected advanced surgeries with the same level of skill, experience, and excellent outcomes, but without the prohibitive cost.
